Work History

2021-04 - 2021-07

Python Developer
DJT Corporation, Noida, Uttar Pradesh
Collaborated with a dedicated team upon a bank statement analyzer that create a summary of the bank statement given by bank.

2020-05 - 2020-07

NAVIGATION MAPPING Using HERE Map Creator
Here Technologies, Noida, Uttar Pradesh
- In this Internship, we are trying to doing updates in a specific area using HERE Map Creator
- This updating includes Main House Number and points of interest on an AOI. Using this HERE Map Creator, we can add address, details of roads and points of interests
- Using these navigators can find out the location of POIs and the phone numbers of an interested POI. The main features of this Map Creator are that we can add house numbers of AOIs

2019-05 - 2019-06

Intern at Leading India.Ai
Leading India.Ai, Greater Noida, Uttar Pradesh
- We have been given task to pick trends in chaotic data with the help of kernel methods.
- Compare each kernel method with help of RMSE.

Major Projects

- Eventocator(An Event Management App):There are many events going in our university campus some event are small(with low population) and they have booked lecture hall and some events are way too big and they aren't able to find an appropriate venue.Our app build in java helps them to locate venue that best suits their needs.
- Bennett Bay: Sometimes we get ourselves into a situation that we want to buy something that isn't available in university campus and we also don't want to go out by ourselves then what we need to do we want to find a person who is going out but searching could be cumbersome task.We build an app that predicts that(who is going when) based on the history of the in/out timings of that person.

Education

2013-04 - 2014-03

Class X CBSE : 84%
St. Paul's School - Chandrapuri Colony Mathura

2015-04 - 2016-03
